MORE TOUCHPOINTS FOR **TH** DEPOSITORS WITH JomPAY

KUALA LUMPUR, February 3, 2021 - Lembaga Tabung Haji (**TH**) is introducing a deposit taking service through JomPAY, an online fund transfer service, as part of its digital initiatives to provide more touchpoints for the convenience of its depositors.

JomPAY is supported by 28 banks in Malaysia through Internet Banking platforms. As an addition to **TH**'s existing digital services, JomPAY will make it easier for **TH** depositors to transfer funds online into a **TH** savings account anytime and anywhere.

"**TH** always strives to provide value-added digital services to its depositors and today is another successful milestone where depositors can transfer funds online more easily using JomPAY. With JomPAY, depositors can transfer funds from their bank savings or current account to a **TH** savings account through their existing internet banking platform. What's more, depositors do not have to make any registration to use this facility and it is absolutely free of any charges", said Tuan Haji Mustakim Mohamad, **TH**'s Executive Director, Operations.

Currently almost 80 percent of transactions at **TH** are carried out using online channels and this additional facility will further bring convenience to the depositors to transact with **TH**. The JomPAY Biller Code for Tabung Haji Deposit is 60228 and a 15-digit **TH** savings account number is required to be entered as Ref-1.
